

KSF FISH PUMPS

Alle pumps are submerged during operation and delivered with hydraulic hoses as standard. KSF-25 is delivered with frame as shown on the below photo. KSF-4 and KSF-10 are delivered with either normal stand or frame. KSF-2 is delivered with rubber feet.

Model	KSF-2	KSF-4	KSF-10	KSF-25
Inlet / Outlet	4" / 4"	6" / 6"	6" / 6"	6"/8" / 6"/8"
Dimensions / Weight	36x46x30cm/15kg	72x96x45cm/33kg	72x96x64cm/36kg	90x50x100cm/75kg
Max. capacity	Ca. 1800 lpm	Ca. 3000 lpm	Ca. 3000 lpm	Ca. 4500 lpm
Max. head	Ca. 4 m	Ca. 5.5 m	Ca. 5.5 m	Ca. 6 m
Max. fish size	Ca. 30 g	Ca. 200 g	Ca. 300 g	Ca. 1 kg

KSF Hydraulic Power Pack

The hydraulic power pack is equipped with a valve for stepless regulation that allows you to adjust the amount of oil, which the gear pump supplies to the oil engine on the fish pump. When sorting, this function may be of importance as it allows you to control the amount of fish being pumped.
